Description

One-of-a-kind contemporary villa consisting of two living rooms, an open-plan kitchen and dining area, five (5) ensuite bedrooms, an office space, an underground garage for 3 cars, a spacious roof garden and a pool.

The underground level has a covered parking area for three large cars with direct access to the lobby, where you can take an elevator or stairs to all levels of the villa. In the western part, serving spaces are designed for a laundry area, a kitchen, an additional bedroom with a bathroom and a laundry room.

The wide entrance door opens to an entrance group of spaces from the living area, specially equipped for grand piano and live sound, combined with panoramic windows that easily open and make the lounge garden in the heart of the villa accessible. Next, a wide gallery leads to the dining area, where the open island kitchen is combined with the master's living room and study. To move to different levels of the villa, you can use a glass staircase or an elevator.

The sleeping spaces are located on the second level of the villa, creating an individual comfort for each room - the bedroom has its own dressing room, bathroom, zonal lighting and original decor. The master bedroom is located in the east wing and combines a large dressing room, a bathroom with a bathtub and shower, as well as a loggia with views of the pool and garden.

A flight of stairs leads to the third floor, an open space in Rafgarden that offers views of the mountains, the city, and the nearby parks. Here you can find a lounge area under the sun, a bar, a barbecue area or just a lounge area under the pergolas.
